

**Manufacturers of  
Bespoke Luxury Trailers**

# About Us

Site Build was established in early 2014, initially to support the ever increasing demand of our hire fleet, ensuring we always have the highest quality and youngest fleet available. Since then we have taken the market by storm, developing a wide range of VCA Full European Vehicle Type Approved trailers. From toilet trailers to showers, urinals, cabins, offices and ticket booths.

The brain child came about in 2009 when we introduced themed toilet trailers to the market, as a unique and bespoke alternative to plain white or green toilet trailers. These were so popular, we started to manufacture the toilet trailers from scratch.

Site Build is located in Lasham, Hampshire, within a bespoke 5000 square foot factory which has been specially built to accommodate the manufacturing.

Site Build holds European Community Whole Vehicle Type Approval (ECWVTA) from the Vehicle Certification Agency (VCA). Ensuring you have the confidence all of our trailers meet specified performance standards.

Site Build's In-House Welder

We use high quality materials, logical design and expert knowledge to ensure maximum reliability. Our units are built in-house by experts, who understand the complexities of hire and the end users requirements.

# The Process

We work with our clients closely to ensure we collectively create an aesthetically pleasing and optimum performing trailer with the most durable fixtures and fittings, conforming to European whole vehicle type approval.

Galvanized Chassis

From the ground upwards all of our trailers are built in-house, starting with our experienced welder creating the chassis which are then galvanized locally. The walls and roof panels are cut to size using solid GRP panels. Four external doors are placed, opening outwards, all keyed alike. Ball cast coupling, corner prop stands and cast clamps are applied. LED lighting, internally and LED marker lights externally on the front and rear which come with a 13 pin electric socket.

GRP Panels

GRP Panels Cut to Size

GRP Panels Cut to Size

We can manufacture to your specific requirements to every possible configuration. We have a standard configuration range, or we can build bespoke creations for our clients, with quality fixtures and fittings to ensure durability and long lasting use. We always have the end user in mind ensuring your toilet trailer will stand the test of time.

We have a strong creative team who work alongside our experienced and highly skilled engineers to produce the finest finishing's from a wide range of pans, basins, taps, urinals and mirrors. No matter the style or feel of trailer you are seeking, our creative team will be able to provide inspiration and practical suggestions together to deliver a flawless trailer to suit all of your needs.

The Beginnings of a 3+1 Luxury Toilet Trailer

Our units are built to order ensuring you have a wide scope to create a toilet trailer to your requirements. Although we have a core range of standard units with multiple options for configuration, we are also able to produce completely bespoke units to suit your needs. Including options to connect to mains or as a recirculating or vacuum unit, with disabled access or even to combine a shower within a toilet trailer.

3+1 Luxury Toilet Trailer

Internal of a 3+1 Luxury Toilet Trailer

At Site Build we hold a wide range of fixtures and fitting in wide range of styles and colours to ensure your toilet trailer has the finest finishings to your specifications. Our latest range of luxury finishes can be seen here.

All of our toilet trailers are available with the following optional extras including:

- Wall mounted electric heaters
- CD player and spotlight speakers
- Stainless steel dispensers in lieu of the standard plastic dispensers
- Dyson Air blade
- Sensor taps
- Signwriting or vinyl wrapping

Aluminum Internal Bin

Aluminum Cubical Legs

Hot and cold self-closing chrome taps are offered as standard, as well as full width or two mirrors above the vanity unit. Two discreet air freshener dispensers and luxury hand soaps and hand lotions can be added as a finishing touch.

Internal Vanity Unit

The cubicles and vanity units are solid grade laminate in a dark and light brown wood effect with aluminum fittings. Complementing the clean white ceramic basins, back to wall WC pans with concealed cisterns and ceramic urinals. To emphasize the quality finishes and achieve a contemporary edge the toilet trailer is highlighted with LED lighting throughout the ceiling, set behind the mirrors, underneath the vanity units and within the aluminum detachable steps.

## Toilet Trailers

## Urinals and Disabled Toilet Trailers

Ceramic Urinals

In addition to our range of luxury and event bespoke toilet trailers we have also built a range of large towable urinal blocks. These can be in any configuration required, to meet your specifications. Similarly to our toilet trailers these are built using GRP and can be custom built using a range of colours, styles, fixtures and fittings. As standard we provide clean, white ceramic urinals.

The urinal trailers, are available with the options of connecting to mains, or with an integrated waste tank. Totally self-contained with the exception of an electric supply via a 16 amp socket to power the internal lights, either LEDs or strip lights.

[www.site-build.co.uk](http://www.site-build.co.uk) - 0800 371 994 - [build@site-equip.co.uk](mailto:build@site-equip.co.uk)

Within the toilet trailer range Site Build can also manufacture brand new disabled facilities. Whether within a stand-alone trailer or accompanied within a regular toilet trailer.

Disabled Toilet Trailer

The disabled toilet trailers can be built bespoke to your specification to allow an aesthetically pleasing and Doc M compliant Interior.

Combined features include a choice of aluminum or stain steel ramp or hydraulic lift leading into the toilet trailer. We can also apply a number of adaptations to ensure comfort for everyone; external aluminum handrails, a lowered sink, wall mounted hand rails and an emergency cord.

Internal 20 Man Urinal

6 Bay Shower

Site Build manufacture shower trailers in a range of layouts and combinations whether it is a shower and toilet combination or 10 shower heads and cubical combination. Internally there are a range of optional accessories including; bench or seating area, mirrors, wet room or shower curtains, hooks and matting or non-slip flooring. In addition to full length slide away steps.

Seating Area

All of our mobile shower units are gas fed and supplied with a gas safety certificate. Complete with automatic quick change gas regulator with room for two 47kg gas bottles ensures every shower will be warm.

Aluminum Shower

Internal Shower Bay

The service bay within our shower trailers combines the following specifications, depending on the configuration and size of the shower trailer; Rinari electronic boilers, Lowara booster pump with changeover valves, Auxiliary 240v plug socket for connecting Saniflo or similar for the waste discharge when no adequate fall is available, an electric consumer unit and light, pipework, waste traps and outlet.

# Accommodation

## Layouts, Fixtures and Fittings

Mobile Canteen Interior

Mobile Office

Site Build manufacture a wide range of accommodation for both events and construction, available in any configuration and towable or static.

Mobile Ticket Booth Window

Our bespoke accommodation units have the option to be towed to your desired location to lower transport costs, and then to kneel down into location to optimise security.

Ticket Booth Window

Mobile Ticket Booth

Our standard layouts are open plan 12 foot, 16 foot and 18 foot. These can then be adapted to your specification with windows, benches, canteen areas, heaters, electrical sockets and lighting. To create a mobile office, canteen, ticket booth, and an exhibition unit, the options are endless.

# Care Packages

Site Build holds full European type approval for twin axle braked trailers, this is a legal requirement and all our trailers are certified and issued with a type approval certificate.

Trailer Mid-Build

At Site Build we offer a 12 month guarantee against all of our bespoke trailers. To provide our committed support to our customers we supply an advice line and if you're within our catchment area we can supply a 24/7 call out service. To ensure you have full support and knowledge for prolonged longevity of your trailer.

Trailer Mid-Build

Integral Waste Tank

To ensure your trailer is resilient to usage, we offer a yearly MOT service for your trailer to come into our workshop, have a deep clean and service. We also provide refurbishment at an additional cost.

This includes;

- Deep cleaning the waste tank and filtration system.
- Pumps, LED lights and brakes testing.
- Clean inside and out.

Tow Bar

Waste Outlet

No matter the bespoke trailer you are thinking about creating, Site Build can make your ideas come true. We have designed and built a range of new exciting trailers, bringing something different to the market. Being the first manufacturer of themed toilet trailers, we are always pushing the boundaries.

Site Build can vinyl wrap the inside and outside of any size trailer, with a theme, corporate colour and logo and hand craft a curved or pointed roof with added detail to put the finishing touches to your unique trailer.

The Potting Shed
